***COVID-19 Vaccine Distribution***

De Baca Family Practice Clinic (DBFPC) is able to provide the Moderna COVID-19 vaccine. We are allocated the vaccine by the State of New Mexico based on supply. Please understand, we are required to follow the criteria set forth by the New Mexico Department of Health (DOH) regarding who is currently eligible for vaccine. The DOH will announce additional categories of eligibility as the vaccine supply becomes more available. Please visit <https://cv.nmhealth.org/vaccine-availability/> for additional information.

If you want to receive the COVID-19 vaccine you have two options-

1. You may sign-up on the DOH COVID-19 Vaccine Registration website at <https://cvvaccine.nmhealth.org/>. Once you have registered through DOH website, you will receive notification of the date, time and location you have been assigned to receive your vaccine (*Please note, when you sign-up through the DOH website you are not registered to get your vaccination at the Clinic, nor do we have access to their registration database*).
2. If you prefer to receive your COVID-19 vaccination through the Clinic, you **MUST** contact our staff at (575) 355-2414 to sign-up. Our staff will place you on a waiting list based on the current eligibility status criteria established by the State. As soon as the Clinic has vaccine available for the eligibility status you meet, you will be notified of your scheduled date and time to come to the Clinic for your COVID-19 vaccination. Due to the logistics involved in distribution of the vaccine, we cannot accept walk-ins.

***Please remember, if you do not call the Clinic to sign-up to receive the vaccine, you are not scheduled through the Clinic to receive the vaccine. You must call the Clinic to sign-up.***

The COVID-19 vaccine should be administered alone with a minimum interval of 14 days before or after administration with any other vaccines. This includes the flu vaccine.
